

Joint workshop- Nautical Institute, Institute of Marine Engineering, Science & Technology & the Cyprus Master Mariner's Association

Marlow Navigation, Marlow Building, 13 Alexandrias Street, CY3720, Limassol

Wednesday 23rd March 2016, 1815 hrs

A WORKSHOP ON CYBER SECURITY

How vulnerable are our GPS, ECDIS, GMDSS, the engine and cargo automation systems to manipulation? How about our office based systems? How can we be prepared to tackle these threats, both internal and external? How can we prepare our crew and offices to be Cyber-Safe?

This workshop conducted by 'SOFTimpact' is aimed to help companies and their ships navigate through the digital challenges. SOFTimpact is a Cyprus based consulting and maritime software development company. The company specializes in products like payroll, crewing, KPI and other business solutions.

All Nautical Institute members & friends of the Branch are invited. Please pass the information to your colleagues in your offices. There will be an after-event drinks & networking session at the same venue.

Please indicate on the below list if you & your colleagues will be able to attend and forward to Capt. V.S. Parani, email: vsparani@gmail.com, Mob: +357 96500667 by latest Friday 18th March 2016.

Company	Name	Position
